## **ALABAMA MARBLE COMPANY**

Gantt's Quarry, Alabama

- |                            |                             |
|----------------------------|-----------------------------|
| (A) Alabama Cream Clouded★ | (A) Alabama Cream Selected  |
| (A) Alabama Cream          | (B) Alabama Cream Veined    |
|                            | (B) Alabama Cream Pavonazzo |

Present production is 70,000 cubic feet yearly. Quarry can handle any job of interior marble. Quantities range less of grades downward in the order listed. Large quantity of foreign blocks of all grades on inventory.

## **APPALACHIAN MARBLE**

P. O. Box 1911 Knoxville, Tennessee

The structural, utility and decorative marbles listed below are obtainable:

- |                                 |                                  |
|---------------------------------|----------------------------------|
| (A) Appalachian Bond Pink       | (C) Appalachian Fleuri           |
| (A) Appalachian Champion Pink   | (A) Appalachian Havlin Gray Pink |
| (A) Appalachian Bond Dark Cedar | (B) Appalachian Roseal           |
| (B) Appalachian Antique Rose    | (A) Appalachian Silver Gray      |

The above marbles are currently being quarried. Group A marbles are available for all requirements. Other Groups are obtainable in limited quantities and in sizes consistent with the structural classification of the individual Grouping.

## **THE BABCOCK COMPANY**

Kasota, Minnesota

This company maintains at all times a large stock, available in blocks, sawed slabs or finished:

- |                        |                             |
|------------------------|-----------------------------|
| (A) Buff Kasota Fleuri | (A) Pink Buff Kasota Fleuri |
| (A) Buff Kasota Veine  | (A) Pink Buff Kasota Veine  |

## **CARTHAGE MARBLE CORPORATION**

P. O. Box 612 Carthage Missouri

- |                         |                           |
|-------------------------|---------------------------|
| (C) Cliffdale           | (A) Ozark Tavernelle      |
| (C) Colorosa Mahogany   | (C) Rose Cecile           |
| (C) Colorosa Travertine | (C) Royal Breche          |
| (A) Dovellet            | (A) Silvetto              |
| (B) Ferndale            | (C) St. Clair Golden Vein |
| (C) Golden Melange      | (C) Ozark Crystal Rose    |
| (A) Napoleon Gray       | (C) Ozark Famosa          |
| (A) Ozark Gray Veined   | (A) Ozark Fleuri          |
| (C) Ozark Rouge         | (B) St. Clair Platin      |

This corporation also carries in its yards a large inventory and a large assortment of foreign marbles most of which are listed under Imported Marbles on pages 6 and 7.

## **JOHN J. CRAIG COMPANY**

P. O. Box 631 Knoxville 5, Tennessee

The following marbles are being quarried in increasing amounts and this company's production is expected to meet all anticipated requirements for reasonable sizes:

- |                   |                          |
|-------------------|--------------------------|
| (C) Coral Rose    | (A) Hamil Pink           |
| (A) Craig Pink    | (A) Henderson Dark Cedar |
| (B) Dolly Varden  | (A) Marmor               |
| (A) Edward Pink   | (A) Rosemont             |
| (A) Fontaine Gray | (C) Royal Fleuri         |
|                   | (A) Sunset Rose          |

## **THE GEORGIA MARBLE COMPANY**

Tate, Georgia

The following varieties of structural, utility and decorative marbles are produced:

- |                           |                            |
|---------------------------|----------------------------|
| (A) Georgia Creole        | (A) Georgia Mezzotint      |
| (A) Georgia Etowah Pink   | (C) Georgia Verde Antique  |
| (C) Georgia Grand Antique | (A) Georgia White          |
|                           | (A) Georgia White Cherokee |

Quarrying of all these marbles is generally proceeding at the rate of production of approximately 600,000 cubic feet annually. Within practical limitations large sizes are available.

## **GRAY KNOX MARBLE COMPANY**

P. O. Box 1311 Knoxville, Tennessee

This company reports that standard grade structural and utility marbles for interior and exterior (Group A) are being produced at the rate of 20,000 cubic feet per month.

Decorative grades (Groups B and C) primarily for interior use, are being produced at the rate of 2,000 cubic feet per month. This production enables this company to maintain a stock of blocks of practically all grades of its marbles.

- |                               |                              |
|-------------------------------|------------------------------|
| (A) Granox Acme               | (C) Granox Roseal            |
| (B) Granox Brochelle          | (B) Granox French Pink       |
| (A) Granox Champion Pink      | (C) Granox Golden Buff       |
| (C) Granox Coral Rouge Fleuri | (A) Granox Gray              |
| (A) Granox Lawson             | (B) Granox Imperial Black    |
| (A) Granox Pearl Gray         | (A) Granox Rose Pink         |
| (A) Granox Quaker Gray        | (A) Granox Veined Champion   |
|                               | (A) Granox Veined Dark Cedar |

## **GREEN MOUNTAIN MARBLE COMPANY**

(Division of The Georgia Marble Co.) West Rutland, Vermont

- |   |                         |
|---|-------------------------|
| (A) Blanc Dur                             | (A) Venato              |
| (A) Hard White Ivory Vein (exterior only) | (A) Vert Mont           |
| (A) Meadow White                          | (A) Clarendon White     |
|   | (B) Clarendon Blue      |
|   | (A) Meadow White Fleuri |

Quarrying of all above varieties is now proceeding at the rate of approximately 120,000 cubic feet per year. Slabs of large sizes are available in all varieties except Vert Mont and Clarendon Blue, which should be limited to no more than 20 square feet.

## **IMPERIAL BLACK MARBLE COMPANY**

801 Bluff Drive Knoxville, Tennessee

- (B) Imperial Black

Ample stock of blocks for general purpose interior marble is available at quarry. Finished material can be obtained through all marble manufacturers and dealers.

## **MANKATO STONE COMPANY**

P. O. Box 823 Mankato, Minnesota

This company produces the following decorative materials from deposits of high grade dolomite stock. Large stocks of blocks are in supply and quarry production will continue to meet all interior and exterior requirements.

- |                  |                         |
|------------------|-------------------------|
| (A) Mankato Buff | (C) Mankato Pink        |
| (A) Mankato Gray | (B) Mankato Pink-Buffer |
|                  | (B) Mankato Cream       |

(★) Letters in parentheses preceding the name of the marble indicate group classification and are in no way related to cost of the marble.

**THE MARYLAND GREEN MARBLE COMPANY**

P. O. Box 1 Clifton, New Jersey  
 (C) Maryland Verde Antique

A good stock of this material is maintained in New York and at the quarry in Cardiff, Maryland. Quarrying of large size blocks will proceed as conditions warrant.

**MORETTI-HARRAH MARBLE COMPANY**

P. O. Box 330 Sylacauga, Alabama

This company produces the following structural, utility and decorative marbles at the rate of 100,000 cubic feet annually. Production is being increased monthly.

- |                           |                             |
|---------------------------|-----------------------------|
| (A) Alabama Madre Clouded | (B) Alabama Madre Veined #1 |
| (A) Alabama Madre Cream   | (B) Alabama Madre Veined #2 |

**SOUTHWEST ONYX & MARBLE COMPANY, INC.**

Foot of Crosby Street—P. O. Box 106 San Diego 12, California  
 (D) Pedrara Mexican Onyx

This corporation produces from its quarry in Baja California, Mexico, Pedrara Onyx. Ample stocks of all sizes of blocks for construction and novelty work are carried in San Diego and available through wholesalers.

**TENNESSEE MARBLE COMPANY (TEMAIN)**

(Division of The Georgia Marble Co.) West Rutland, Vermont  
 P. O. Box 1550 Knoxville, Tennessee

This company is quarrying the following structural, utility and decorative marbles at the present time:

- |                                |                                |
|--------------------------------|--------------------------------|
| (A) Brun de Fleurs             | (C) Ste. Genevieve Golden Rose |
| (A) Cedarchelle                | (C) Ste. Genevieve Golden Vein |
| (A) Cedar Tavernelle           | (C) Ste. Genevieve Rose        |
| (A) Dark Cedar Veined          | (A) Temain Gray                |
| (C) Georgia Grand Antique      | (A) Temain Light Pink          |
| (A) Mahogany Antique           | (A) Temain Rose Tavernelle     |
| (C) Roseal                     |                                |
| (A) Rose Gray                  |                                |
| (C) Ste. Genevieve Breche Rose |                                |

Production of the Cedars now average 4,000 cubic feet per month, and a stock of 15,000 cubic feet is being maintained. This company is carrying a stock of blocks of around 3,000 cubic feet of Temain Pink on hand, and the production is such that the quarries can meet any normal requirements.

Quarry production of the Ste. Genevieve marbles will average 1,200 cubic feet per month for the Ste. Genevieve Golden Vein and Ste. Genevieve Rose. Ste. Genevieve Breche Rose is limited in production.

A good stock of all standard foreign, Georgia, Alabama and Vermont marble is maintained at all times.

**VERMONT MARBLE COMPANY**

61 Main Street Proctor, Vermont

The domestic marbles of this company are on hand in varying quantities at the present time and production of the following structural, utility and decorative marbles will be proceeded with on a large scale as conditions warrant:

- |                                      |                                   |
|--------------------------------------|-----------------------------------|
| (A) Endsley Cedar Tennessee          | (A) Vermarco Light Cloud          |
| (C) Endsley Fleuri Tennessee         | (A) Vermarco Listavena            |
| (A) Endsley Imperial Tennessee       | (A) Vermarco Neshobe Gray Clouded |
| (A) Endsley Pink Tennessee           | (A) Vermarco Neshobe Gray Veined  |
| (A) Endsley Robilee (Gray) Tennessee | (A) Vermarco Olivo                |
| (A) Endsley Walnut Tennessee         | (A) Vermarco Pacific Green Vein   |
| (A) Highland Danby                   | (A) Vermarco Statuary             |
| (A) Montclair Danby                  | (A) Vermarco Striped Brocadillo   |
| (A) Plateau Danby                    | (A) Vermarco Surf Green           |
| (A) Radio Black                      | (A) Vermarco Taconic Green Vein   |
| (A) Regal Danby                      | (C) Vermarco Verde Antique        |
| (A) Royal Danby                      | (A) Westland Verde Verde          |
| (A) Vermarco Best Light Cloud        |                                   |
| (A) Vermarco Cadet Gray              |                                   |
| (A) Vermarco Delft                   |                                   |
| (A) Vermarco Extra White             |                                   |
| (A) Vermarco Florence                |                                   |

## COLOR RANGES

### APPROXIMATE

For the convenience of architects, engineers and specifiers of Marble, the following Marbles are listed under general color groups.

**SPECIFY BY NAMES, NOT  
GROUP CLASSIFICATIONS**

**BLACK**

- (C) Belgian Black . . . . . Belgium
- (D) Black and Gold . . . . . Italy
- (D) Bleu Belge . . . . . Belgium
- (D) Italian Grand Antique . . . . . Italy
- (B) Negro Marquina . . . . . Spain
- (C) Portoveer . . . . . Italy
- (C) Ste. Anne African Vein . . . . . Morocco
- (C) St. Laurent (Pyrenees Black and White) . . . . . France

**BROWN**

- (B) Este (Dark) . . . . . Italy
- (B) Geneva Antique Travertine . . . . . Italy
- (B) Bronzeo Travertine . . . . . Italy

**BUFF-CREAM or LIGHT (Monotones)**

- (C) Botticino . . . . . Italy
- (C) Bronzetto . . . . . Italy
- (B) Galilee Golden Buff (Israel Cream) . . . . . Israel
- (B) Hauteville . . . . . France
- (B) Israel Gold A . . . . . Israel
- (C) Ivory Vein (Light and Dark) . . . . . Spain
- (B) Perlato d'Italia  
(Crema Perla) (Dolcetto Perlato) . . . . . Italy
- (B) Serje Cream . . . . . Yugoslavia
- (C) Tavernelle (All Types) . . . . . Italy
- (B) Travertine Geneva Cream . . . . . Italy
- (B) Travertine Imperial . . . . . Italy
- (B) Travertine Roman . . . . . Italy
- (B) Travertine St. Erasmo . . . . . Italy

**BUFF-DARK (Monotones)**

- (C) Mazzano . . . . . Italy
- (B) St. Peter Travertine . . . . . Italy

**GRAY-LIGHT (Monotones)**

- (B) Aurisina (All Types) . . . . . Trieste
- (A) Bardiglietto . . . . . Italy
- (B) Belle joyeuse . . . . . France
- (B) Gray Alhambra . . . . . Spain
- (B) Graymole (Paloma) . . . . . France
- (B) Guiliano (Light) . . . . . Italy
- (C) Repen . . . . . Trieste

**GREEN**

- (C) Forest Green . . . . . Italy
- (C) Greek Cipolin . . . . . Greece
- (C) Pine Green . . . . . Italy
- (C) Monte Verde . . . . . Italy
- (C) Rose Vert Campan . . . . . France
- (C) Regent Green . . . . . Italy
- (B) Serpentine Scuro . . . . . Italy
- (C) Serpentine Silvery Green . . . . . Italy
- (C) Swedish Green . . . . . Sweden
- (C) Tinos . . . . . Greece
- (C) Verde Antonio . . . . . Italy
- (C) Verde Floran . . . . . Italy
- (C) Verde Imperial . . . . . Italy
- (C) Verde Jardin . . . . . Italy
- (C) Verde Lenco . . . . . Italy
- (C) Verde Luceto . . . . . Italy
- (C) Verde Maurizio . . . . . Italy
- (C) Verde St. Denis . . . . . Italy
- (C) Verde Issorie . . . . . Italy
- (C) Verde Fraye (Verde Bosco) . . . . . Italy
- (C) Verde Merano . . . . . Italy
- (B) Ver-Myen Serpentine . . . . . Italy
- (C) Verte Jade . . . . . Portugal

**RED**

- (B) Catalan Red . . . . . Spain

(C) Peruvian Golden Travertine (All Types) . . . . .	Peru
(D) Sienna (All Types) . . . . .	Italy
(C) Yellow Verona (All Types) . . . . .	Italy

The Marbles listed here are now in stock or will be available within the year. Before specifying any of these Marbles for work requiring substantial quantities or large sizes, it would be well to inquire of the Institute as to their availability at the time and in the specific quantities and sizes required. In addition to the Marbles listed above, there are many others available in smaller quantities.

It should be carefully noted that the four GROUPS defined on this page have no reference whatsoever to comparative merit or value. With proper methods of manufacture, all these materials, regardless of classification, are considered of substantially equal performance, durability, or utility, with respect to the particular purpose for which they are recommended. The classifications merely define what shall be proper and acceptable in each instance, as based on trade usage. Some discretion must be exercised in selection, depending upon conditions the Marble will meet.

(★) Letters in parentheses preceding the name of the marble indicate group classification and are in no way related to cost of the marble.

# marble

*classification for soundness*

AIA File No. 22-A

Due to the diversity of composition, texture, color and characteristics peculiar to the various Marbles used throughout the world, the MARBLE INSTITUTE OF AMERICA, with the knowledge gained in extensive practical experience of its members in handling Marble, has classified Marbles into FOUR groups, the basis of classification being the CHARACTERISTICS encountered in FINISHING.

These groupings should be taken into account when

specifying or purchasing Marble for use in buildings. For the convenience of the buyer, these groups are designated by the letters A, B, C, D. While the characteristics of the various Marbles are important in connection with the work of FINISHING the material, they do not indicate relative excellence and do not interfere to any great extent with the installation at the building. Only with Groups C and D is an exception made; the setting space and thickness should be increased if necessary, if liners are required for reinforcement.

CLASSIFICATIONS	DOMESTIC <i>Size restrictions</i>	FOREIGN <i>Size restrictions</i>
<p><b>GROUP A</b></p> <p>Sound Marbles and Stones, with uniform and favorable working qualities.</p>	<p><b>GROUP A</b></p> <p>Generally produced so as to make finished sizes up to 7'8" long and 5'6" wide.</p>	<p><b>GROUP A</b></p> <p>Generally produced so as to make finished sizes up to 7'8" long and 5'6" wide.</p>
<p><b>GROUP B</b></p> <p>Marbles and Stones similar in character to the preceding group, but working qualities somewhat less favorable; occasional natural faults; limited amount of waxing and sticking necessary.</p>	<p><b>GROUP B</b></p> <p>In some instances marbles in this classification may be obtained in sizes set forth under Group A. In other instances sizes should be listed under Groups C &amp; D.</p>	<p><b>GROUP B</b></p> <p>In some instances marbles in this classification may be obtained in sizes set forth under Group A. In other instances sizes should be listed under Groups C &amp; D.</p>
<p><b>GROUP C</b></p> <p>Marbles and Stones of uncertain variation in working qualities; geological flaws, voids, veins and lines of separation common; standard shop practice to repair Nature's variations by sticking, waxing and filling; liners and other forms of reinforcement freely employed when necessary.</p>	<p><b>GROUP C</b></p> <p>Generally used for decorative purposes and practical sizes would be up to 6'6" long and from 2'6" to 4'0" in width.</p>	<p><b>GROUPS C &amp; D</b></p> <p>Importers and Wholesalers recommend jointing for most of the marbles in these classifications in lengths of from 4'0" to 7'0" and widths of from 2'6" to 4'0". Often, selection and delivery can be greatly facilitated by a jointing scheme which permits the use of smaller sizes. A final jointing scheme should be agreed upon after the marble has been selected and the marble contractor has been consulted.</p>
<p><b>GROUP D</b></p> <p>Marbles and Stones similar to the preceding group and subject to the same methods of finishing and manufacture, but which contain a larger proportion of natural faults, and a maximum variation in working qualities; this group comprises many of the highly colored Marbles prized for their decorative qualities.</p>	<p><b>GROUP D</b></p> <p>Same as Group C.</p>	<p>In special cases, larger sizes may be available. Contact your nearest MIA member for specific information.</p>

**THE MARBLE INSTITUTE OF AMERICA, Incorporated**, is an organization composed of Quarriers, Importers, Wholesalers, Finishers and Contractors of Marble, formed to establish and maintain the highest standards for the presentation of Marble and the quality of workmanship related to its use.

This Institute has accumulated a vast amount of information from the domestic and foreign marble producing and finishing centers of the world, and as a result is in a position to give authentic, unbiased information regarding the commercially available Marbles of the world, to Architects, Engineers, Builders and others interested in Marble.

The Institute and its individual members are available in connection with the selection, supply, finishing and installation of Marble.

Requests for Marble Information and Marble Service addressed to any of the members listed herein or to the Institute's Managing Director, will receive prompt attention.
